Why anybody would say secret information in an open forum and expect it to stay secret is beyond me. This place has about 1000 people, I have no idea who about 990 of them are, I'm not going to say shit in front of them and anybody who does should not expect anything less than everybody knowing their business.

 Also you know paraphrasing comments from a thread like two weeks ago isn't really the equivalent of leaking.

 | /u/go1dfish promptly responded with "don't victim blame." Completely serious.

You don't put quotes around a paraphrase, if anything you misquoted me, out of context (that I am prohibited from providing) in a clear attempt to defame me. and then accused *ME* of leaking for having the audacity to add the context of my own fucking statements?

## WHAT THE FUCK?

 Not sure about you, but I put quotes around paraphrases all the time. Also trust me when I say nobody actually cares enough to actively try and defame you, you're not Edward Snowden.

 Then lets make the sub public.

At least then I can add some context to these out of context defamations.

 You could also add context in the SRD thread. Feel free?

 BPB is already trying to claim that I am "leaking" by repeating my own statements to add context.

 Seems like he's just out to rattle your chain. And it appears to be working.

... by breaking the rules of this sub in a way that has gotten people kicked out of it in the past.

Don't leak

 So why not send a modmail rather than self posting? This just stirs up drama.

 I agree wholeheartedly [/u/go1dfish](#). That was completely inappropriate of bipolarbear0 and action must be taken immediately. I no longer feel safe commenting in this community after bear's detestable behavior.

 I wouldn't have made such a joke in public, and he's taking my quotes in this subreddit out of context to defame me.

I can't even add context WTF?

I messaged the mods here and [/u/creesch](#) is defending him.

 [\[-\]](#) [creesch](#) [toolbox](#) 2 points 17 minutes ago

 yeah totally defending him when I say that I don't agree with his actions. It just isn't exactly leaking, I also said he has been spoken to.

 defending not sanctioning.

May I have permission to post the entirety of the comments of that thread in order to add context?

That's the only halfway reasonable restitution there can be if BPB is to remain in this sub.

 there is nothing reasonable in your request. Now, here is what I am going to do. I am going to remove this thread and ask both you and [/u/BipolarBear0](#) to talk this out in private as the two adults you both are.

no, I said talk it out. not fight it out in front of a bunch of people. I also talked to bipolar he agreed to remove the piece that caused this.

That's exactly what a guy with 42 in his username would say. I suggest you stop shilling for the 42 industry or I will get my good friend and colleague to spam posts on 100 different subreddits including [/r/undelete](#) and [/r/antitax](#) about it.

If you think someone should be banned, why don't you go to the people with authority? Message the mods. This is just childish, similar to your IFTA post today

I did before posting this, they took no action and have removed this post.
